To Whom It May Concern:

I would like to offer this letter of support for Carolyne Ouya who was recently accepted to the M.A. in Marriage, Couples, and Family Therapy program at our San Diego campus of The Chicago School of Professional Psychology.

Each student's unique perspective is integral to our growth as an institution and to innovation in the field of psychology as a whole. Ms. Ouya, a pillar of strength to her community, an advocate for all those she serves, and an individual of great courage and resilience herself, will no doubt spearhead initiatives and contribute to the welfare of our society by becoming a trained professional in the mental health sector.

We look forward to welcoming Ms. Ouya on-campus this coming January, 2020, to start her master's program, with the support she needs to complete her education, and fulfill her career goals, and greater purpose.

Should you need any additional information, please contact me at the number listed below, or via email. Thank you for this opportunity to recommend Carolyne Ouya.

Sincerely,

Sabrina Bahir
Director of Global Enrollment Management
The Chicago School of Professional Psychology
